## About Jack Hatfield

Jack Hatfield is a best selling author of two books, and a highly recognized expert in the field of Overcoming Adversity and Parenting. His initial success came in the technology field where he has boasted many successes. He single handedly saved his clients over 30 million dollars with his ideas and innovations. The Prelude book, *Blessed with Tragedy*, details the story of his premature daughter's birth in a day-by-day diary format. The current book, *Natural Success Principles*, is an extension of the lessons and knowledge that he witnessed sitting by his daughter's bedside everyday. She successfully navigated some of the most amazing tests a human being can encounter, all while being so small. But her size, and all preemies' size, can leave a person with the foolhardy assumption to think they are not strong. This enabled Jack to see the amazing force of the human spirit.

Her wisdom was so blinding. He could not concentrate on anything else but the glory of what he was witnessing. Her incredible journey impressed upon him the most extraordinary lessons. We now know that you have everything you need to succeed inside you before you were born. After pouring over his notes and his blogs; the intrinsic values became focused for the very first time. They forged Natural Success Principles. Thus begins our journey for finding these principles inside ourselves. How do we succeed? Why do we succeed? Why does it seem some people never succeed, or is their definition so low that they really have succeeded?

Jack has set out on his life quest to change the world. "It seems that we took these principles and hid them. We covered them up with social norms, idiosyncrasies, and learned behavior. Why?" asks Jack. "They are the true spirit of the human being. These principles guide you from day one."

Once anyone sees his drive to teach these lessons, they will understand how his true destiny is now unfolding. He will show you that our possibilities are staggering. Our abilities are unbelievable. Our true spirit is so amazing; it is mind-boggling how we managed to lose contact. It took a baby to show the way. If you have ever thought you could call something a miracle, this would be it. Jack feels tremendous pride knowing that he was given this tremendous opportunity.
